

Distinguish Yourself in the Marketplace

Get the CSCS™ Credential! Just having a background in IT or information security is not sufficient anymore for the challenges of business today. Employers are looking for individuals who not only have IT skills but also understand compliance regulations that impact their industry and business – because these are priorities that must be met.

Learning Objectives

- ❖ Step through industry standards such as PCI DSS, GDPR, ISO 27001, HIPAA, and FISMA
- ❖ Evaluate America's standard for compliance: NIST guidance and special publications
- ❖ Understand U.S. state government information security mandates (e.g. Texas, California, New York and others)
- ❖ Explore best practices to build a credible compliance and cybersecurity program

Target Audience

The complete two-day CSCS™ program is of value to compliance professionals and managers, information security officers, security practitioners, privacy officers, internal compliance auditors and senior IT professionals.

Modules

- | | |
|---|---|
| Module 1: State of Cybersecurity | Module 6: PCI DSS |
| Module 2: Regulations: Getting Started | Module 7: California's CCPA |
| Module 3: GDPR | Module 8: U.S. State Regulations |
| Module 4: ISO/IEC 27K Series | Module 9: U.S. Federal Regulations |
| Module 5: Healthcare Information Security | Module 10: NIST Frameworks and Guidance |

"I was very impressed with the CSCS™ Program. I felt the instructor was very knowledgeable on the subject matter and was very engaging. A very professional presentation."

Mike Wall | The SSI Group

Program Testimonials

"Instructor was very enthusiastic and made the class more interesting. It was a great overall discussion of all the standards and regulations including certifications that businesses have to comply with. Rating of CSCS™ course: 10. Rating of instructor: 10."

Michael Carr
Beacon Health Options

"The CSCS™ Program covered several information security areas including ISO 27000, HIPAA, PCI DSS, FISMA and others. I really liked the way the whole program was delivered by instructor. Covered the landscape of global information security and compliance. This program brings a lot of energy and passion towards the subject and a good sense of humor while delivering these complex topics. Would highly recommend others to take this certification program."
