Professional Consultants

- ### What is 23 NYCRR 500?
- The New York Department of Financial Services (NYDFS) implemented a new cybersecurity regulation (23 NYCRR 500) applicable to certain financial services companies
  - New requirements affecting financial services companies operating in New York and authorized under the New York Banking Law, Insurance Law, and Financial Services Law
  - Covered Entities must provide annual compliance certifications to state regulators
  - Increased focus on third-party risk management as breaches increasingly attributed to third-parties and sub-contractors
