

MX2 Technology Achieves HITRUST® Certification DoD's CMMC Included in Validated Scope

Feb 14, 2022

MX2 Technology partnered with ecfirst, a HITRUST Authorized External Assessor

Milpitas, California — Feb 14, 2022/PRNewswire/ — MX2 Technology, an executive IT leadership firm and leader in providing a full suite of Technology As A Service (TaaS) selections, has achieved HITRUST Certification for the company's Private Cloud Infrastructure offering, known as the MX2 Platform.

The HITRUST Risk-based, 2-year (r2) Certified status demonstrates that key implemented systems within the organization are HITRUST-certified and that MX2 Technology appropriately meets the US Department of Defense Cybersecurity Maturity Model Certification (CMMC) requirements within HITRUST for managing cyber risk, as required by the Department of Defense (DoD).

This achievement places MX2 in an elite group of organizations worldwide that have earned this certification. By including federal and state regulations, standards, and frameworks and incorporating a risk-based approach, the HITRUST Assurance Program helps organizations address security and data protection challenges through a comprehensive and flexible prescriptive and scalable security controls framework.

"The HITRUST, Department of Defense (CMMC) certification is a validation of MX2's relentless focus on baseline cybersecurity and proof of our commitment to exceeding the regulatory requirements," said MX2 Technology's Chief Executive Officer, Divyash Patel. "We're honored to be one of the first executive IT leadership firms to receive this prestigious certification. We know that our customers can have greater trust and confidence in us, because this demonstrates our deep commitment to manage client cyber risk."

With extensive expertise serving the biopharma, IT and defense contractor industries, MX2's strict security practices protect customers, partners, and staff during an unprecedented time of cyber-attacks.

MX2 Partnered with ecfirst, a HITRUST-Authorized External Assessor, in achieving HITRUST Certification.

"The HITRUST CSF Certification is the gold standard across industries," said Uday Ali Pabrai, Chief Executive, ecfirst. "MX2's successful achievement of HITRUST Certification is evidence that they are at the forefront of industry best practices for information risk management and compliance."

About MX2 Technology

MX2 Technology is an executive IT leadership firm. Founded in 2005, MX2 enables the leaders of small and mid-sized organizations to use technology to grow, manage, and protect their data assets. With its proprietary HITRUST-certified MX2 Platform, the firm provides baseline cybersecurity and a full suite of Technology As A Service (TaaS) selections. Cloud Computing, Storage / Virtualization, Managed IT and Managed Security Services, Backup & Disaster Recovery are a part of a comprehensive service package. This approach has assisted many successful organizations to meet their goals through the strategic use of technology.
