The World's First Program Focused on Compliance & Cybersecurity

Get the CSCS™ Credential! Just having a background in IT or information security is not sufficient anymore for the challenges of business today. Employers are looking for individuals who not only have IT skills but also understand compliance regulations that impact their industry and business – because these are priorities that must be met.

Learning Objectives

- Step through industry standards such as PCI DSS, GDPR, CCPA, CPRA, ISO 27001, HIPAA and FISMA.
- Evaluate America's standard for compliance: NIST guidance and special publications.
- Understand U.S. state government information security mandates (e.g. Texas, California, New York and others).
- Explore best practices to build a credible compliance and cybersecurity program.

Target Audience

The CSCS™ program is of value to compliance professionals and managers, information security officers, security practitioners, privacy officers, internal compliance auditors and senior IT professionals.

Modules

- Module 1: State of Cybersecurity
- Module 2: Critical Issues of Today
- Module 3: Regulations and Frameworks: Getting Started
- Module 4: ISO/IEC 27K Series
- Module 5: PCI DSS
- Module 6: Healthcare Information Security Regulations
- Module 7: U.S. Federal Regulations
- Module 8: NIST Frameworks and Guidance
- Module 9: U.S. State Regulations
- Module 10: GDPR
- Module 11: Incident Response Plan (IRP)
- Module 12: Business Continuity Plan (BCP)

Great teachers

Everything was great!

Great course and instructor

Lots of information given in such a short time

I strongly recommend it

References

He explained everything so I could understand

This is a fantastic introductory course into compliance

kept the class engaged

Great class
