

## Manage Compliance for HIPAA, NIST and more

Does your organization need to comply with regulations & standards such as the HITECH Act, State Regulations, HIPAA Privacy & HIPAA Security? *Are your internal resources stretched to capacity & you lack the necessary expertise to identify all cybersecurity gaps & vulnerabilities?*

More than ever before, businesses today need to comply with cybersecurity & regulatory requirements to protect sensitive information about their customers, who may be consumers or patients. The penalties associated with not meeting cybersecurity requirements are not insignificant. Further, organizations have to extend precious internal resources to gain cybersecurity expertise & then manage regulatory requirements for privacy & information on a recurring basis.

This can be challenging to most organizations. ecfirst can help with its MCSP – the first program of its type in the industry, worldwide.

ecfirst delivers complete end-to-end solutions for cybersecurity. With over thousands of clients across all States in the USA, ecfirst tailors its work to closely align with your requirements & culture. Whether your requirements include a resource to implement security controls & technologies, develop policies & procedures, or comply with HIPAA, HITECH, PCI DSS, ISO 27001, ecfirst is flexible to address your workforce needs.

### On a regular schedule, organizations must by law:

- Assign responsibility to the security officer who is responsible for coordinating cybersecurity initiatives
- Conduct a comprehensive & thorough cybersecurity assessment
- Complete a Business Impact Analysis (BIA) for contingency planning & disaster recovery
- Develop & update security policies & procedures
- Train all members of the workforce

### MCSP Benefits

MCSP is designed to assist organizations, including business associates manage cybersecurity requirements, security & core components of the infrastructure. ecfirst's MCSP is designed to address critical regulatory requirements. Key benefits of the managed cybersecurity program include:

- Clearly defined deliverables to achieve secured organization
- Expert advisor assigned – serves as interim Information Security Advisor (one call; one email)
- Risk analysis & cybersecurity assessment conducted on a regular schedule
- Policies maintained on a continual basis
- Easily tailored to your organizational requirements - highly flexible
- Very scalable program – can monitor & audit as required
- Skilled resource pool with expert domain knowledge
- Fixed monthly fee, no interest

## Client Reference

*“ Prime Healthcare and its network of 40+ hospitals are excited to have exclusively selected ecfirst, home of the HIPAA Academy, to address HIPAA and HITECH regulatory compliance mandates. The engagement is based on the ecfirst MCSP which is a complete end-to-end comprehensive compliance solution that addresses risk analysis, technical vulnerability assessment, policy development, social engineering, business impact analysis, creation of a disaster recovery plan, as well as on-demand remediation services for risk management (corrective action plan).
