#### FBI Conference

“Pabrai’s presentation style is engaging, and he encourages questions and discussions. I would recommend him for future presentations and trainings.”

Josh More | *Cyber Sector Chief | Iowa FBI InfraGard*

“On behalf of the Idaho InfraGard (FBI), I would like to thank Pabrai for presenting at our conference. Pabrai is the kind of speaker you want to bring to executives and staff. He says it in a simple, no nonsense way, in a manner that everyone can understand.”

Rachel Zahn | *President | InfraGard (FBI) | Idaho Alliance*

“You delivered a fantastic presentation and we all felt your passion for cyber security.”

James E Lamadrid | *Supervisory Special Agent | Federal Bureau of Investigation (FBI) | Cyber Task Force*

“Thank you Pabrai. Your enthusiasm and relevance for the Information Security material you presented at our combined InfraGard (FBI) conference in Idaho Falls was very well received and pertinent to both our chapter as an organization and the constituents in attendance.”

“As a government employee, I appreciated the simplified insight of highlighting the importance of compliance and funding compared to information security success beyond qualitative metrics. I heard many times over that your specific information with measurable results made your material directly relevant to individuals, businesses and organizations. Thanks again and I hope you are able to join us again in the future.”

Clark Harshbarger | *FBI*

“Uday’s presentation gave clarity around the complexity of the multitude of compliances. The content can be used to help communicate to c-level managers the current security climate and direction security regulations are heading. This type of presentation to mid-level managers confirms as well as adds content that is highly relevant.”

“It was obvious that Uday was very passionate about his topic, had a strong grasp of the subject matter and included his audience in discussions. It really hit the mark to bring home even to experienced security professionals a level of confirmation of their understanding of information security programs and how to implement industry standard controls.”

“The audience that Uday presented to at the InfraGard SuperConference 2010 included law enforcement, protection and safety professionals as well as seasoned information security managers and directors. The presentation was very well received.”

Topic: *Getting Started with ISO/IEO 27000 - A Global Information Security Framework*  
This executive brief will focus on the two standards that influence information security initiatives worldwide, the ISO 27001 and ISO 27002. The ISO 27001 International Standard is about requirements related to security techniques for information technology and information security management systems. The ISO 27002 International Standard was developed to provide a model for establishing, implementing, operating, monitoring, reviewing, maintaining and improving an ISMS.
