

An Executive Cyber Security Program

Virtual | On-site | Public Schedule

Step through U.S. DoD Cybersecurity Mandate: CMMC

CCSASM is an instructor-led 1-day program. The program validates knowledge and skill sets in cybersecurity with focus on the NIST Cybersecurity Framework, and the U.S. DoD cybersecurity mandate, CMMC. Core topics emphasized include establishing a credible, evidence-based enterprise cybersecurity program and developing a comprehensive incident response plan.

Learning Objectives

- Examine how to establish a cybersecurity program based on the NIST Cybersecurity Framework.
- Step through key areas that must be addressed in a credible incident response plan.
- Walk through core components, organization and CMMC Levels.
- Review encryption implementation across the enterprise to mitigate business risk.

Target Audience

- Information Security Officers
- Security Practitioners
- Privacy Officers
- Senior IT Professionals
- Compliance Professionals & Managers

CCSA Program References

Very positive
