Mr. Pabrai's credentials include MSEE, CISSP (ISSAP, ISSMP), HITRUST (CCSFP), DoD CMMC (CCP, CCA)

Ransomware Risk: OCR HIPAA Compliance Readiness

Learning Objectives

- Step through state of ransomware enforcement by OCR for HIPAA compliance
- Examine key HIPAA and NIST reference and source documents for ransomware readiness
- Review key components of program to mitigate ransomware risk including business impact and disaster recovery
- Establish a ransomware readiness program including policy and plan for preparedness

AI Defense, Beyond Cyber

Learning Objectives

- Examining the AI cyber kill chain
- Reviewing NIST and global standards for AI risk management
- Establishing a credible AI risk management framework program
- Enhancing an enterprise compliance program for near real-time cyber defense with AI

HIMSS Iowa Fall 2024 Conference - HIMSS Fest

Once upon a time, centuries ago, a handsome prince and beautiful princess were married in a storybook wedding. The joyous Germans, renowned for their penchant to party, put on a reception that lasted six weeks. They had so much fun, they decided to do it every year. They call it Oktoberfest.

After a educational and fun two day conference last year, we're back with HIMSS Fest in the Amanas!

HIMSS Fest promises a blend of insightful sessions, interactive workshops, and engaging networking opportunities that will inspire, educate, and connect attendees from across the healthcare landscape.
